## BIO

---

Dedicated Graduate specializing in full-stack and mobile application development. Strong foundation in Java (2 years), Flutter, PHP and web technologies, with hands-on experience in building real-world systems including but not limited to e-commerce platforms, management systems and mobile apps. Fast learner, adaptable and eager to contribute to production-level software systems.

## EDUCATION

---

**University:** Bachelor of Science (BSc.) In Information Technology

Eduvos

*Feb 2022 – Present*

**High School:** National Senior Certificate

Parys High School

*Jan 2016 - Nov 2020*

## SKILLS

---

**Languages:** Java, C#, HTML, CSS, JavaScript, Flutter, PHP, SQL(MySQL) and Non-SQL(MongoDB).

**Frameworks:** React, Spring Boot.

**Tools:** Git, GitHub, NetBeans, Eclipse, Visual Studio, Firebase and VS Code.

**Core Knowledge:**

- Data Structures & Algorithms (Java)
- System Architecture & Design
- Computer Networks
- Mobile Application Development & Big Data (Flutter, Android Studio)
- Microsoft Server Management
- Object-Oriented Programming. (Java and C#)

## SOFTWARE DEVELOPMENT EXPERIENCE

---

**Antidote Clothing Application** | Flutter, Firebase, Android Studio    *September 2025 - Current*

- Using Firebase for user sign-ins, authentication and back-end order processes so the client can focus more on creating and designing their clothing products.

**Digital Insurance Management System** | Java, JavaFX, JDBC              *May 2025 – June 2025*

- Developed an Inventory Management system as it is a SaaS tool that can optimize business processes and help run operations effectively.
- It tracks details of an insurance policy and provides instant access to client data.

**E-Commerce Website | HTML, CSS, JavaScript, PHP, MySQL**  
Link: [C2C Marketplace](#)

April 2025 – July 2025

- I developed an e-commerce website using PHP, HTML, CSS and JavaScript called Sho'Trade to tackle existing trust and delivery issues regarding e-commerce with admin oversight.

**Personal Website | HTML, CSS, JavaScript**  
Link: [My Personal Website](#)

February 2025 – May 2025

- I developed a personal portfolio website using HTML, CSS and JavaScript to showcase my projects and skills intuitively.
- Used Figma for design and GitHub Pages as server host.

**Inventory Management System | Java, JavaFX, JDBC**  
Link: [ThePhantomCipher/Inventory-Management-System: This is an inventory management system developed with java, using the JavaFX GUI. It allows users to input product details through a Graphical User Interface \(GUI\) and enables adding, viewing, updating, searching, and deleting product records.](#)

February 2025 – March 2025

- I developed an Inventory Management System using JavaFX GUI for a school project and showcase understanding of OOP principles.
- Uses Java classes to manage products and database connections.

## Achievements / Certifications
